

Two- and Three-Dimensional Figures

Draw lines to match the objects to the three-dimensional figures.

1.

cones

2.

3.

cylinders

4.

5.

cubes

6.

Which figure does not belong?

7.

spheres

8.

cubes

Faces

Match each three-dimensional figure to its faces.

1.

2.

3.

4.

5. Circle each figure with 6 faces. Put an **X** on each figure with 5 faces.

**rectangular
prism**

**triangular
prism**

**square
pyramid**

cube

Edges

Color each figure with 12 edges blue.

Color each figure with 9 edges green.

Color each figure with 8 edges yellow.

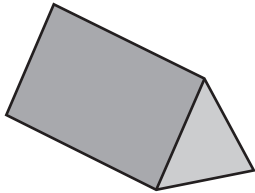

Color each figure with no edges red.

Vertices

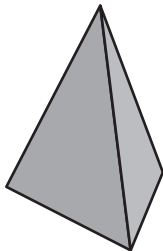

Match each three-dimensional figure to its description.

1.

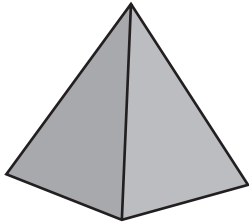

5 faces, 8 edges, 5 vertices

2.

5 faces, 9 edges, 6 vertices

3.

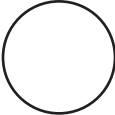

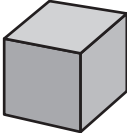

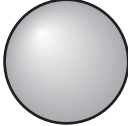

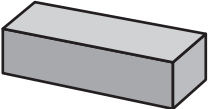

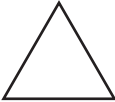

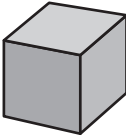

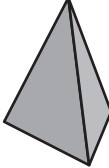

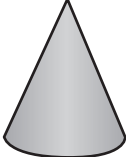

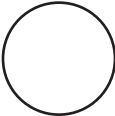

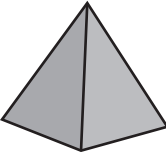

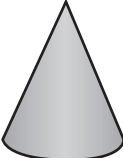

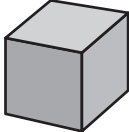

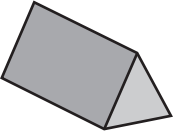

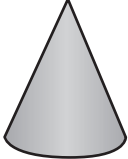

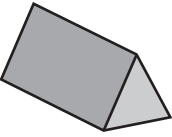

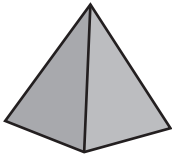

4 faces, 6 edges, 4 vertices

How many faces, edges, and vertices does each object have?

	Object	Number of Faces	Number of Edges	Number of Vertices
4.				
5.				
6.				

Cylinders and Cones

Which figure in each row could have made the footprint?

	Footprint	Figures			
1.					
2.					
3.					
4.					
5.
